I need your help on Quarkus Cucumber

Said BOUDJELDA (Back-end Developer @Sciam.fr)

December 03, 2024

Quarkus

Why Quarkus?

- Java (The programming language of the enterprise world)
- Fast startup, and adaptable for the cloud
- Native compilation

Why Quarkus?

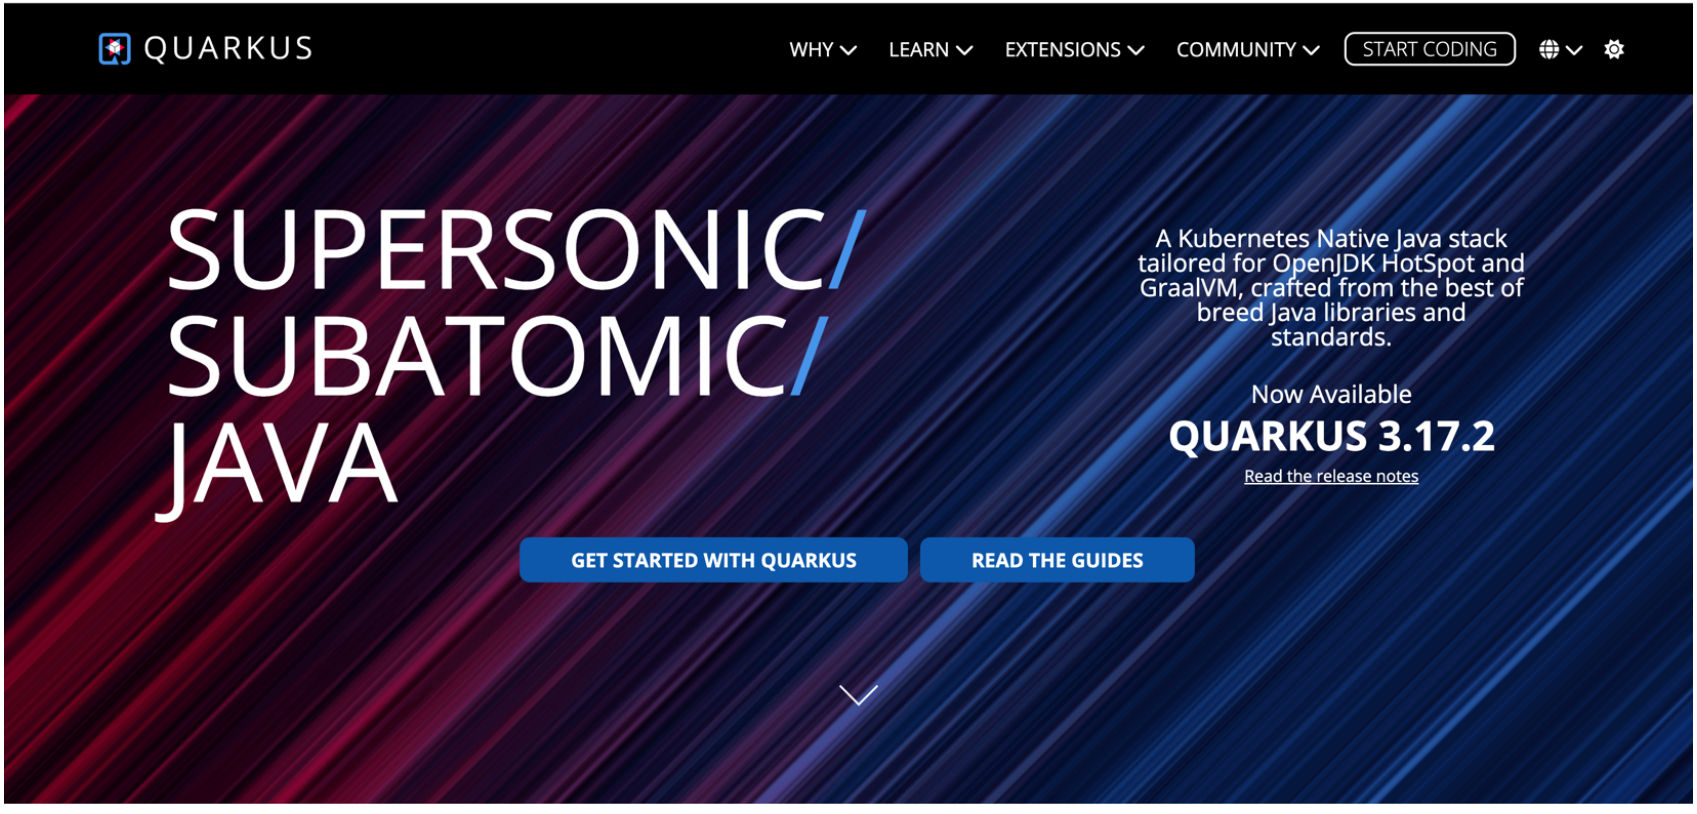

Figure 1: Quarkus home page

Why Cucumber?

- BDD (Behavior Driven Development)
- A framework for writing tests in natural language (Gherkin)
- Make tests readable and understandable by non-technical people

Why Not Quarkus Cucumber?

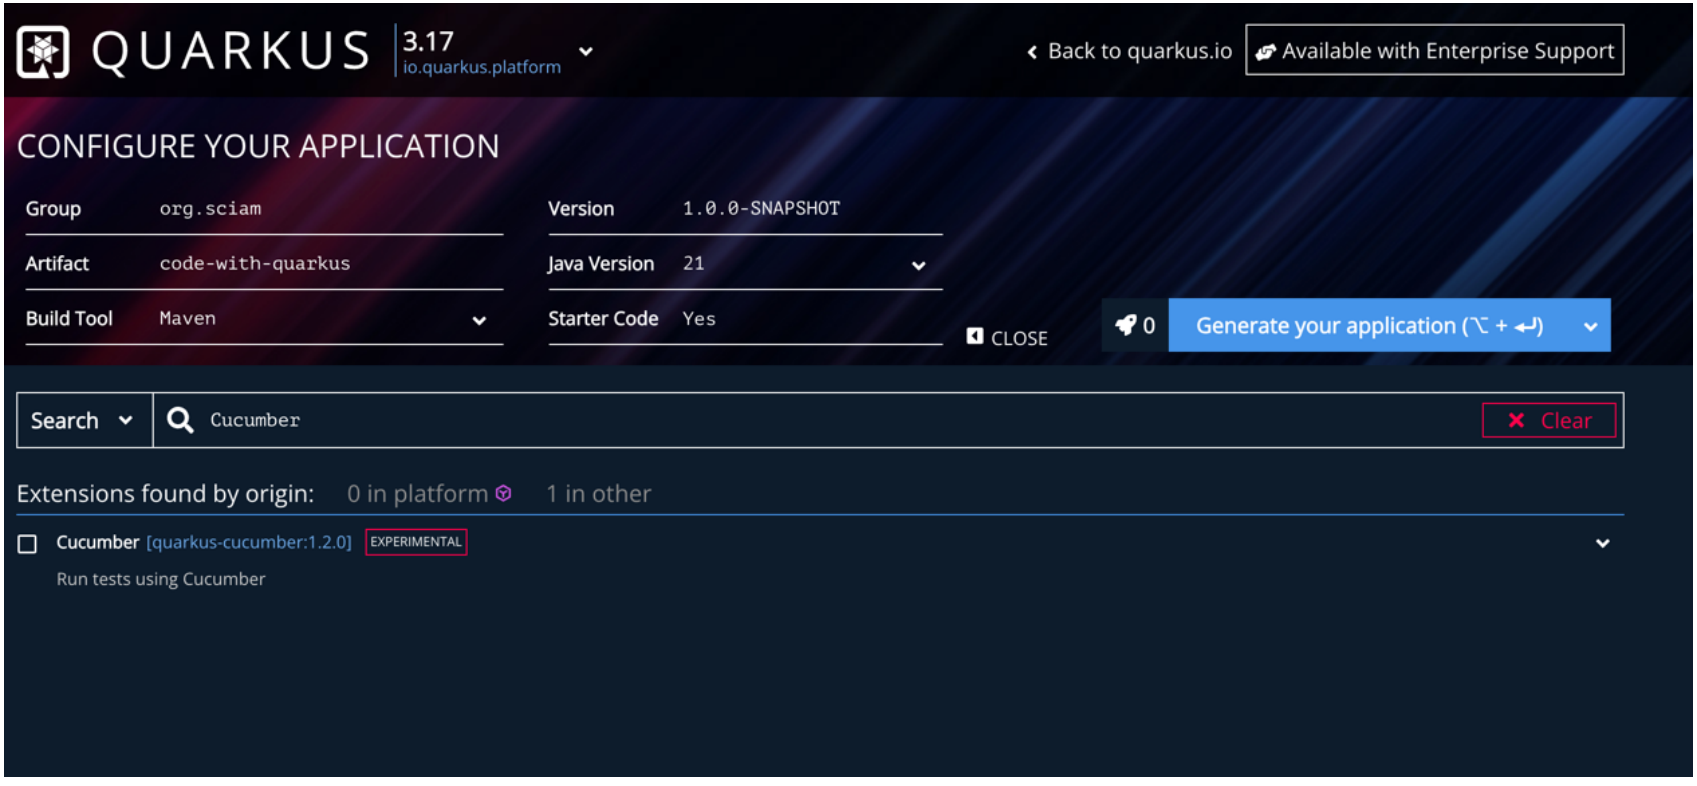

Figure 2: Quarkus home page

What to do?

- Contribute to the Quarkus Cucumber extension

What do we need you for?

- Write documentation
- Enhance the extension
- Implement new features

More ?

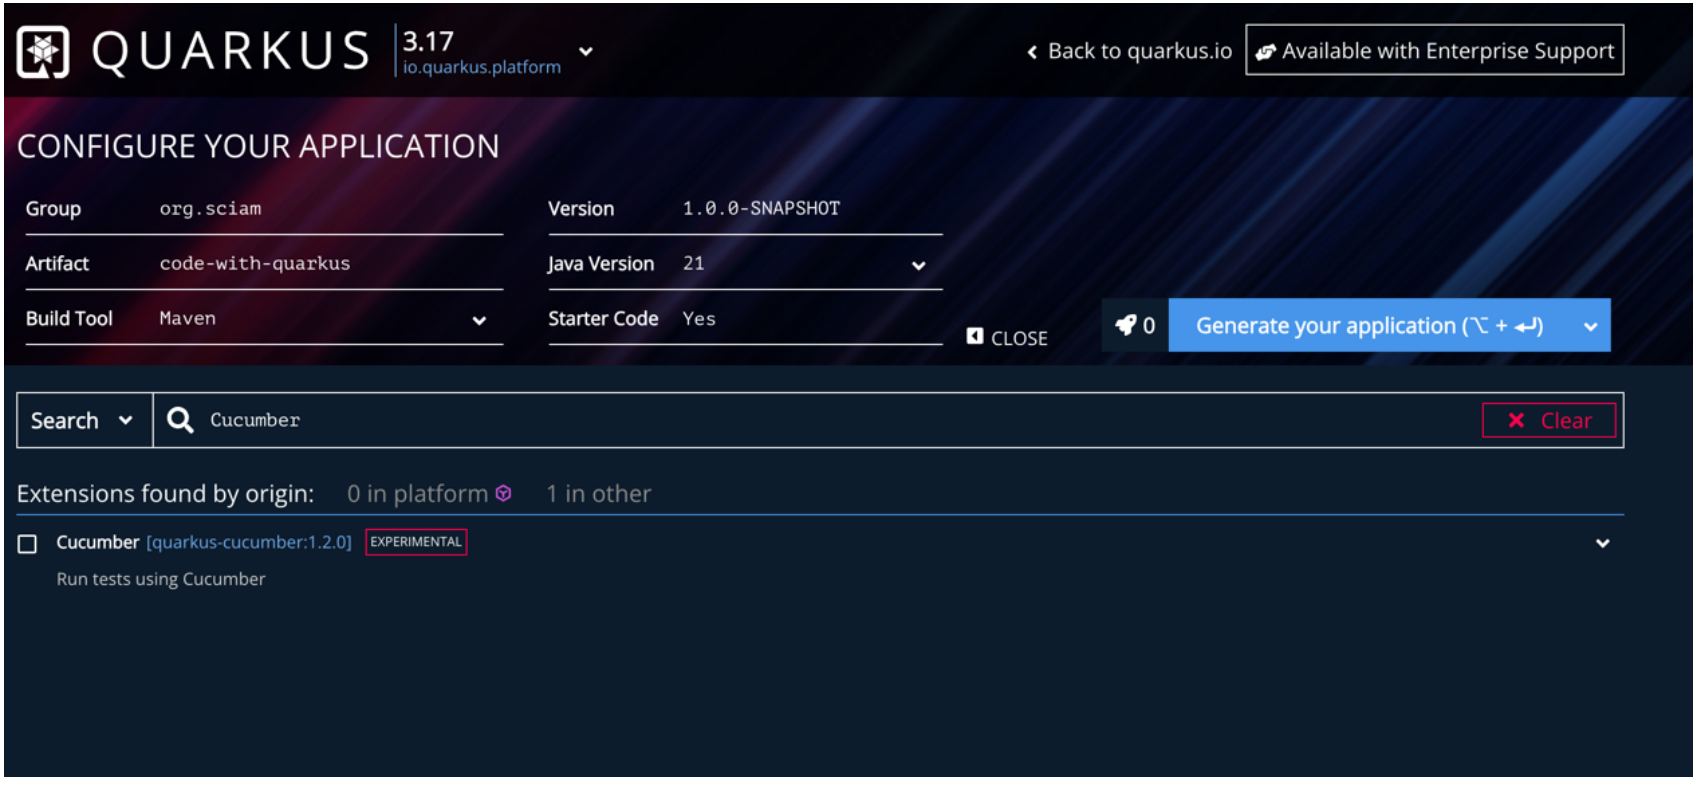

Figure 3: Quarkus home page

What's next?

- The big refactoring of the extension must come one day

Useful links ?
